

TRUunity™

TRUBIQUITY

ARE YOU LOOKING TO:

- ▶ Improve project management and team collaboration processes?
- ▶ Collaborate with employees, customers and partners across disparate geographies?
- ▶ Provide business partners with access to data sitting behind a firewall?
- ▶ Improve the quality of data stored across business units and organizations?
- ▶ Control and monitor the distribution of sensitive intellectual property?

Communication and knowledge sharing— the ultimate challenges.

On demand has become a way of life. Business relationships form every minute in every country around the globe—all with the goal of bringing better products to market faster. As project teams become more globally dispersed, the challenges involved with linking team members across company boundaries, firewalls, disparate systems and geographic locations increase.

Anytime, anywhere collaboration—a simple solution.

TRUunity is a virtual, federated workspace that enables team collaboration in a secure and interactive setting, regardless of geographic location. Create virtual rooms for specific project teams, business functions and partner communities, all while managing data views and integrity through comprehensive access controls. By enabling continuous collaboration via multiple communication methods, TRUunity boosts team communication and productivity while decreasing project completion time, product development and design cycles and time-to-market.

Collaboration across project teams, organizations and partner communities.

Enabling integration and extension through SaaS.

TRUunity is built upon TRUcore's service oriented architecture connecting enterprises across all global communication protocols and standards by providing a single sign on. Access Trubiquity solutions via an on demand model—over the internet, anytime, anywhere in the world and benefit from the global language and global time support that is provided in many regions of the world.

TRUunity™

TRUBIQUITY

Collaboration across project teams, organizations and partner communities.
